Report on the Audit of the Financial Statements***Opinions***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Orinda Union School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Orinda Union School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Orinda Union School District, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Orinda Union School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Orinda Union School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user of the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Orinda Union School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Orinda Union School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis, budgetary comparison information, schedule of changes in net OPEB liability and related ratios, schedule of district contributions and investment returns for OPEB, schedules of proportionate share of net pension liability, and schedules of district contributions for pensions be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Orinda Union School District's basic financial statements. The supplementary information listed in the table of contents, including the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2022 on our consideration of the Orinda Union School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Orinda Union School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Orinda Union School District's internal control over financial reporting and compliance.

OVERVIEW OF FINANCIAL STATEMENTS (continued)

Components of the Financial Section (continued)

This annual report consists of three parts – Management's Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The three sections together provide a comprehensive overview of the District. The basic financial statements are comprised of two kinds of statements that present financial information from different perspectives:

- ▶ **Government-wide financial statements**, which comprise the first two statements, provide both short-term and long-term information about the entity's overall financial position.

- ▶ **Fund financial statements** focus on reporting the individual parts of District operations in more detail. The fund financial statements comprise the remaining statements.
 - ▶ **Governmental Funds** provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

 - ▶ **Proprietary Funds** report services for which the District charges customers a fee. Like the government-wide statements, they provide both long- and short-term financial information.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The basic financial statements are followed by a section of required and other supplementary information that further explain and support the financial statements.

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health. Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.

The government-wide financial statements of the District include governmental activities. All of the District's basic services are included here, such as regular education, food service, maintenance and general administration. Local control formula funding and federal and state grants finance most of these activities.

FINANCIAL ANALYSIS OF THE DISTRICT’S MAJOR FUNDS

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed this year, its governmental funds reported a combined fund balance of \$71,436,435, which is more than last year’s ending fund balance of \$34,674,936. The District’s General Fund had an overall decrease in fund balance of \$1,105,316 for the year ended June 30, 2022. The District’s Building Fund had an overall increase in fund balance of \$35,276,844 for the year ended June 30, 2022. The District’s Bond Interest and Redemption Fund had an overall increase in fund balance of 2,674,139 for the year ended June 30, 2022.

CURRENT YEAR BUDGET 2021-2022

During the fiscal year, budget revisions and appropriation transfers are presented to the Board for their approval on a regular basis to reflect changes to both revenues and expenditures that become known during the year. In addition, the Board of Education approves financial projections included with the Adopted Budget, First Interim, and Second Interim financial reports. The Unaudited Actuals reflect the District’s financial projections and current budget based on State and local financial information.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

At the time these financial statements were prepared and audited, the District was aware of several circumstances that could affect its future financial health.

In its September 2022 quarterly report, the UCLA Anderson Forecast stated the U.S. economy was likely to muddle along with below-trend growth and continued high inflation over the next twelve months. No recession is forecast at this time; however, the possibility still exists that persistent inflation and aggressive interest rate policy will lead to a hard landing of the economy, potentially triggering a recession. In California, defense spending and technology demands will likely keep the economy growing.

**ORINDA UNION SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS, continued
FOR THE YEAR ENDED JUNE 30, 2022**

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET (continued)

Fiscal policy for the funding of public education changes annually based on fluctuations in State revenues. The May 2022 Budget Revision includes total funding of \$128.3 billion (\$78.4 billion General Fund and \$49.9 billion other funds) for all K-12 education programs, additionally, the revised spending plan further accelerates the implementation of the "California for All Kids" plan, which is a whole-child support framework designed to target inequities in educational outcomes among students from different demographic backgrounds and empower parents and families with more options and services. The Proposition 98 Guarantee continues to be in Test 1 for 2021-22 and 2022-23. To accommodate enrollment increases related to the expansion of transitional kindergarten, the Governor's Budget proposed re-benching the Test 1 percentage to increase the percentage of General Fund revenues due to the Guarantee, from 38.03 percent to approximately 38.4 percent. The May Revision updates the increased Test 1 percentage from approximately 38.4 percent to approximately 38.3 percent. At May Revision, the 2022-23 cost-of-living adjustment (COLA) is updated to 6.56 percent, the largest COLA in the history of LCFF.

The District participates in state employee pensions plans, California State Teachers' Retirement System (CalSTRS) and California Public Employees' Retirement System (CalPERS) and both are underfunded. The District's proportionate share of the liability is reported in the Statement of Net Position as of June 30, 2022. The amount of the liability is material to the financial position of the District. The CalSTRS projected employer contribution rate for 2022-23 is 19.10 percent. The CalPERS projected employer contribution rate for 2022-23 is 25.37 percent. The projected increased pension costs to school employers remain a significant fiscal factor.

Enrollment can fluctuate due to factors such as population growth, competition from private, parochial, inter-district transfers in or out, economic conditions and housing values. Losses in enrollment will cause a school district to lose operating revenues without necessarily permitting the district to make adjustments in fixed operating costs.

All of these factors were considered in preparing the District's budget for the 2022-23 fiscal year.

**ORINDA UNION SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The Orinda Union School District (the “District”) accounts for its financial transactions in accordance with the policies and procedures of the Department of Education’s *California School Accounting Manual*. The accounting policies of the District conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

The District operates under a locally elected Board form of government and provides educational services to grades TK-8 as mandated by the state. A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments and agencies that are not legally separate from the District. For the District, this includes general operations and student-related activities.

B. Component Units

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization’s relationship with the District is such that exclusion would cause the District’s financial statements to be misleading or incomplete. The District has no such component units.

C. Basis of Presentation

Government-Wide Statements. The statement of net position and the statement of activities display information about the primary government (the District). These statements include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenue, and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenue for each function of the District’s governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reserved for the statement of activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting of operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District.

Fund Financial Statements. The fund financial statements provide information about the District’s funds and proprietary funds. Separate statements for each fund category – governmental, and proprietary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

Governmental funds are used to account for activities that are governmental in nature. Governmental activities are typically tax-supported and include education of pupils, operation of food service and child development programs, construction and maintenance of school facilities, and repayment of long-term debt.

ORINDA UNION SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS, continued
JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Basis of Presentation (continued)

Proprietary funds are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which a fee is charged to external users or to other organizational units of the District, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting.

Major Governmental Funds

General Fund: The General Fund is the main operating fund of the District. It is used to account for all activities except those that are required to be accounted for in another fund. In keeping with the minimum number of funds principle, all of the District's activities are reported in the General Fund unless there is a compelling reason to account for an activity in another fund. A District may have only one General Fund.

Building Fund: This fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code Section 15146*) and may not be used for any purposes other than those for which the bonds were issued. Other authorized revenues to the Building Fund are proceeds from the sale or lease-with-option-to-purchase of real property (*Education Code Section 17462*) and revenue from rentals and leases of real property specifically authorized for deposit into the fund by the governing board (*Education Code Section 41003*).

Bond Interest and Redemption Fund: This fund is used for the repayment of bonds issued for the District (*Education Code Sections 15125–15262*). The board of supervisors of the county issues the bonds. The proceeds from the sale of the bonds are deposited in the county treasury to the Building Fund of the District. Any premiums or accrued interest received from the sale of the bonds must be deposited in the Bond Interest and Redemption Fund of the District. The county auditor maintains control over the District's Bond Interest and Redemption Fund. The principal and interest on the bonds must be paid by the county treasurer from taxes levied by the county auditor-controller.

Non-Major Governmental Funds

Capital Project Funds: Capital project funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities.

Capital Facilities Fund: This fund is used primarily to account separately for moneys received from fees levied on developers or other agencies as a condition of approving a development (*Education Code Sections 17620–17626*). The authority for these levies may be county/city ordinances (*Government Code Sections 65970–65981*) or private agreements between the District and the developer. Interest earned in the Capital Facilities Fund is restricted to that fund (*Government Code Section 66006*).

Special Reserve Fund for Capital Outlay Projects: This fund exists primarily to provide for the accumulation of General Fund moneys for capital outlay purposes (*Education Code Section 42840*).

Proprietary Funds

Enterprise Funds: Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services.

Before and After School Child Care Fund: This enterprise fund is used to account for the District's financial transactions related to before and after school child care in the District.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Basis of Accounting – Measurement Focus

Government-Wide and Proprietary Financial Statements

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Net Position equals assets and deferred outflows of resources minus liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. The net position should be reported as restricted when constraints placed on its use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities results from special revenue funds and the restrictions on their use.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the internal service fund are charges to other funds for self-insurance costs. Operating expenses for internal service funds include the costs of insurance premiums and claims related to self-insurance.

Governmental Funds

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Governmental funds use the modified accrual basis of accounting.

Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. Generally, "available" means collectible within the current period or within 60 days after year-end. However, to achieve comparability of reporting among California school districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for school districts as collectible within one year.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from the grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

NOTES TO FINANCIAL STATEMENTS, continued
JUNE 30, 2022**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Basis of Accounting – Measurement Focus (continued)

Unearned Revenue

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Certain grants received that have not met eligibility requirements are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time a liability is incurred. On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However, under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position

Cash and Cash Equivalents

The District's cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

Inventories

Inventories are recorded using the purchases method in that the cost is recorded as an expenditure at the time the individual inventory items are requisitioned. Inventories are valued at historical cost and consist of expendable supplies held for consumption.

Capital Assets

The accounting and reporting treatment applied to the capital assets associated with a fund is determined by its measurement focus. Capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)

Capital Assets (continued)

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their acquisition value as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not own any infrastructure as defined in GASB Statement No. 34. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset’s life are not capitalized. All reported capital assets, except for land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings and Improvements	5 – 50 years
Furniture and Equipment	2 – 15 years

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due from other funds/Due to other funds." These amounts are eliminated in the governmental activities columns of the statement of net position.

Compensated Absences

Accumulated unpaid employee vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide financial statements. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resource. These amounts are recorded in the fund from which the employees who have accumulated leave are paid.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken because such benefits do not vest, nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources related to OPEB and deferred inflows of resources related to OPEB, and OPEB expense have been determined by an independent actuary. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)

Postemployment Benefits Other Than Pensions (OPEB) (continued)

Generally accepted accounting principles require the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	July 1, 2022
Measurement Date	June 30, 2022
Measurement Period	July 1, 2021 – June 30, 2022

Gains and losses related to changes in net OPEB liability are recognized in OPEB expense systematically over time. The first amortized amounts are recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The amortization period differs depending on the source of gain or loss. The difference between projected and actual earnings is amortized on a straight-line basis over five years. All other amounts are amortized on a straight-line basis over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) at the beginning of the measurement period.

Premiums and Discounts

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

Deferred Outflows/Deferred Inflows of Resources

In addition to assets, the District will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the District will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit pension plans (the Plans) of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification reflects amounts that are not in spendable form. Examples include inventory, lease receivables (net of related deferred inflows), prepaid items, the long-term portion of loans receivable, and nonfinancial assets held for resale. This classification also reflects amounts that are in spendable form but that are legally or contractually required to remain intact, such as the principal of a permanent endowment.

Restricted - The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Governing Board. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. In contrast to restricted fund balance, committed fund balance may be redirected by the government to other purposes as long as the original constraints are removed or modified in the same manner in which they were imposed, that is, by the same formal action of the Governing Board.

Assigned - The assigned fund balance classification reflects amounts that the government *intends* to be used for specific purposes. Assignments may be established either by the Governing Board or by a designee of the governing body and are subject to neither the restricted nor committed levels of constraint. In contrast to the constraints giving rise to committed fund balance, constraints giving rise to assigned fund balance are not required to be imposed, modified, or removed by formal action of the Governing Board. The action does not require the same level of formality and may be delegated to another body or official. Additionally, the assignment need not be made before the end of the reporting period, but rather may be made any time prior to the issuance of the financial statements.

Unassigned - In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental activities columns of the statement of activities.

G. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

H. Budgetary Data

The budgetary process is prescribed by provisions of the California Education Code and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1 of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For purposes of the budget, on-behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

I. Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County Auditor-Controller bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

J. New Accounting Pronouncements

GASB Statement No. 87 – In June 2017, GASB issued Statement No. 87, *Leases*. This standard's primary objective is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The statement was postponed by GASB Statement No. 95 and is effective for periods beginning after June 15, 2021. The District has implemented this Statement as of June 30, 2022.

J. New Accounting Pronouncements (continued)

GASB Statement No. 91 – In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. This standard's primary objectives are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The statement was postponed by GASB Statement No. 95 and is effective for periods beginning after December 15, 2021. The District has not yet determined the impact on the financial statements.

GASB Statement No. 92 – In January 2020, GASB issued Statement No. 92, *Omnibus 2020*. This standard's primary objectives are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. A portion of this statement was effective upon issuance, while the majority of this statement was postponed by GASB Statement No. 95 and is effective for periods beginning after June 15, 2021. The District has fully implemented this Statement as of June 30, 2022.

GASB Statement No. 96 – In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for governments. This statement defines a SBITA; establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The statement is effective for periods beginning after June 15, 2022. The District has not yet determined the impact on the financial statements.

GASB Statement No. 97 – In June 2020, GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans* – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. This standard's primary objectives are to increase consistency and comparability related to reporting fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; to mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and to enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The statement is effective for periods beginning after June 15, 2021. The District has implemented this Statement as of June 30, 2022.

J. New Accounting Pronouncements (continued)

GASB Statement No. 99 – In April 2022, GASB issued Statement No. 99, *Omnibus 2022*. The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The statement addresses various practice issues, including: (a) clarification of provisions in Statement No. 87, *Leases*, as amended, related to the determination of the lease term, classification of a lease as a short-term lease, recognition and measurement of a lease liability and a lease asset, and identification of lease incentives, (b) disclosures related to nonmonetary transactions; clarification of provisions in Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments*, as amended, related to the focus of the government-wide financial statements, (c) terminology updates related to certain provisions of Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and (d) terminology used in Statement 53 to refer to resource flows statements. A portion of this statement was effective upon issuance, while the remaining portions of this statement were effective for periods beginning after June 15, 2022 and for periods beginning after June 15, 2023. The District has implemented the requirements that were effective upon issuance but has not yet determined the impact on the financial statements for the requirements of this statement that are not yet effective.

GASB Statement No. 100 – In June 2022, GASB issued Statement No. 100, *Accounting Changes and Error Corrections* – an amendment of GASB Statement No. 62. The primary objective of this statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This statement is effective for periods beginning after June 15, 2023. The District has not yet determined the impact on the financial statements.

GASB Statement No. 101 – In June 2022, GASB issued Statement No. 101, *Compensated Absences*. The objective of this statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This statement is effective for periods beginning after December 15, 2023. The District has not yet determined the impact on the financial statements.

B. Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the state; U.S. Treasury instruments; registered state warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; collateralized mortgage obligations; and the County Investment Pool.

Investment in County Treasury – The District maintains substantially all of its cash in the County Treasury in accordance with *Education Code Section 41001*. The Contra Costa County Treasurer’s pooled investments are managed by the County Treasurer who reports on a monthly basis to the board of supervisors. In addition, the function of the County Treasury Oversight Committee is to review and monitor the County’s investment policy. The committee membership includes the Treasurer and Tax Collector, the Auditor-Controller, Chief Administrative Officer, Superintendent of Schools Representative, and a public member. The fair value of the District’s investment in the pool is based upon the District’s pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Local Agency Investment Fund - The investments are held with the Local Agency Investment Fund (LAIF). The program is offered to local agencies and is also part of the Pooled Money Investment Account (PMIA). The investment maintains a fair market value of approximately \$3,340,205.

C. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury. The District maintains a pooled investment with the County Treasury with a fair value of approximately \$68,173,614 which is equal to the adjusted book value. The average weighted maturity for this pool is 266 days.

D. Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investments in the County Treasury are not required to be rated. As of June 30, 2022, the pooled investments in the County Treasury were rated at least A.

E. General Authorizations

Except for investments by trustees of debt proceeds, the authority to invest District funds deposited with the county treasury is delegated to the County Treasurer and Tax Collector. Additional information about the investment policy of the County Treasurer and Tax Collector may be obtained from its website.

F. Custodial Credit Risk – Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2022, the District's bank balance was not exposed to custodial credit risk.

G. Fair Value

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, either directly or indirectly.

**ORINDA UNION SCHOOL DISTRICT
 NOTES TO FINANCIAL STATEMENTS, continued
 JUNE 30, 2022**

NOTE 2 – CASH AND INVESTMENTS (continued)

G. Fair Value (continued)

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonable available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized - Investments in the Contra Costa County Treasury Investment Pool and Local Agency Investment Funds are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

The District's fair value measurements at June 30, 2022 were as follows:

	<u>Uncategorized</u>
Investment in county treasury	\$ 68,173,614

The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures. The District’s Minimum Fund Balance Policy requires a Reserve for Economic Uncertainties, consisting of unassigned amounts, equal to no less than 3 percent of General Fund expenditures and other financing uses.

NOTE 9 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

A. Plan Description

The Orinda Union School District’s defined benefit OPEB plan, Orinda Union School District Retiree Benefit Plan (the Plan) is described below. The Plan is a single-employer defined benefit plan administered by the District. The District is a participant in the California Employer’s Retiree Benefit Trust (CERBT), an agent multiple-employer defined benefit post-employment healthcare plan administered by CalPERS.

B. OPEB Plan Fiduciary Net Position

Detailed information about the Plan’s fiduciary net position is available in the separately-issued Plan Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained by contacting the District.

C. Benefits Provided

The District sponsors healthcare coverage under the California Public Employees Medical and Hospital Care Act (PEMHCA), commonly referred to as PERS Health. PEMHCA provides health insurance through a variety of Health Maintenance Organization (HMO) and Preferred Provider Organization (PPO) options. Participation in PEMHCA is financed in part by the District through a contribution to PEMHCA that varies by employee group.

The District also offers medical coverage to its retirees. The District makes the required statutory PEMHCA contribution as described above, subject to the "Unequal Contribution Method" under which the District's contribution for retirees increases each year to 5 percent of its contribution for active employees multiplied by the years the District has participated in PEMHCA until the two amounts are equal. The PEMHCA minimum contribution is paid for the lifetime of the retiree and continues for the lifetime of an eligible surviving spouse. The District also pays the PEMCHA administrative fees.

The District makes additional contributions towards certain eligible retirees’ premiums based on employee classification and date of hire, as described below.

D. Contributions

The contribution requirements of Plan members and the Orinda Union School District are established and may be amended by the Orinda Union School District, the District’s bargaining units and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through agreements between the District, the District’s bargaining units and unrepresented groups. For fiscal year 2021-2022, the District contributed \$474,508 to the Plan, all of which was used for current premiums.

E. Plan Membership

Membership of the Plan consisted of the following:

	<u>Number of participants</u>
Inactive employees receiving benefits	128
Inactive employees entitled to but not receiving benefits*	-
Participating active employees	<u>248</u>
Total number of participants**	<u>376</u>

*Information not provided

**As of the July 1, 2022 valuation date

F. Net OPEB Liability

The components of the net OPEB liability of the District at June 30, 2022, were as follows:

Total OPEB liability	\$ 20,809,085
Plan fiduciary net position	<u>(1,373,072)</u>
District’s net OPEB liability	<u>\$ 19,436,013</u>
 Plan fiduciary net position as a percentage of total OPEB liability	 6.6%

G. Investments

Investment Policy

The District’s policy regarding the allocation of the plan’s invested assets is established and may be amended by District management. The District participates in the California Employers’ Retiree Benefit Trust (CERBT), a Section 115 trust fund dedicated to prefunding Other Postemployment Benefits for all eligible California public agencies.

The District has adopted the CERBT Strategy 1 portfolio with an objective to seek returns that reflect the broad investment performance of the financial markets through capital appreciation and investment income. The portfolio is invested in various asset classes in percentages approved by the CalPERS Board.

Rate of Return

For the year ended, June 30, 2022, the annual money-weighted rate of return on investments, net of investment expense, was (13.55) percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

H. Actuarial Assumptions and Other Inputs

The total OPEB liability as of June 30, 2022 was determined by an actuarial valuation as of July 1, 2022 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement period of July 1, 2021 to June 30, 2022.

Actuarial cost method	Entry Age, Level Percent of Pay
Recognition of deferred inflows and outflows of resources	Closed period equal to the average of the expected remaining service lives of all employees provided with OPEB
Salary increases	3.00 percent
Inflation rate	3.00 percent
Investment rate of return	6.00 percent, net of OPEB plan investment expense
Healthcare cost trend rate	6.00 percent for 2022, 5.50 percent for 2023, 5.20 percent for 2024 through 2069; 4.50 percent for 2070 and later years; Medicare ages: 4.50 percent for all years.

Pre-retirement mortality rates were based on the CalSTRS Active Member Mortality (2015-2018) for Certificated Employees and CalPERS Pre Retirement Mortality Miscellaneous and Schools (2000-2019) for all other employees. Post-retirement mortality rates were based on the CalSTRS Retired Member Mortality (2015-2018) for Certificated Employees and CalPERS Post Retirement Mortality miscellaneous and schools (2000-2019) for all other employees.

Actuarial assumptions used in the July 1, 2022 valuation were based on a review of plan experience during the period July 1, 2020 to June 30, 2022.

NOTES TO FINANCIAL STATEMENTS, continued
JUNE 30, 2022**

NOTE 9 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

H. Actuarial Assumptions and Other Inputs (continued)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. The calculated investment rate of return was set equal to the expected ten-year compound (geometric) real return plus inflation (rounded to the nearest 25 basis points, where appropriate). The table on the following page provides the long-term expected real rates of return by asset class (based on published capital market assumptions).

Asset Class	Assumed Asset Allocation	Real Rate of Return
Global ex-U.S. Equity	59%	5.5%
U.S. Fixed	25%	1.5%
TIPS	5%	1.2%
Real Estate	8%	3.7%
Commodities	3%	0.6%

The discount rate of 3.82 percent was based on the Bond Buyer 20 Bond Index. The actuary assumed contributions would be sufficient to fully fund the obligation over a period not to exceed thirty years.

NOTE 10 – PENSION PLANS

Qualified employees are covered under multiple-employer contributory retirement plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers’ Retirement System (CalSTRS), and classified employees are members of the California Public Employees’ Retirement System (CalPERS). The District reported its proportionate share of the net pension liabilities, pension expense, deferred outflow of resources, and deferred inflow of resources for each of the above plans as follows:

	<u>Net pension liability</u>	<u>Deferred outflows related to pensions</u>	<u>Deferred inflows related to pensions</u>	<u>Pension expense</u>

A. California State Teachers’ Retirement System (CalSTRS)

Plan Description

The District contributes to the California State Teachers’ Retirement System (CalSTRS); a cost-sharing multiple employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers’ Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 7919 Folsom Blvd., Sacramento, CA 95826.

**ORINDA UNION SCHOOL DISTRICT
 NOTES TO FINANCIAL STATEMENTS, continued
 JUNE 30, 2022**

NOTE 10 – PENSION PLANS (continued)

A. California State Teachers’ Retirement System (CalSTRS) (continued)

Benefits Provided

The CalSTRS defined benefit plan has two benefit formulas:

1. CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS. CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.

2. CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS. CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

Contributions

Active plan CalSTRS 2% at 60 and 2% at 62 members are required to contribute 10.25% and 10.205% of their salary for fiscal year 2022, respectively, and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by CalSTRS Teachers’ Retirement Board. The required employer contribution rate for fiscal year 2022 was 16.92% of annual payroll. The contribution requirements of the plan members are established by state statute. Contributions to the plan from the District were \$2,428,427 for the year ended June 30, 2022.

On-Behalf Payments

The District was the recipient of on-behalf payments made by the State of California to CalSTRS for K-12 education. These payments consist of state general fund contributions of approximately \$1,509,575 to CalSTRS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 11,683,949
State's proportionate share of the net pension liability associated with the District	5,879,032
Total	<u>\$ 17,562,981</u>

NOTE 10 – PENSION PLANS (continued)

A. California State Teachers’ Retirement System (CalSTRS) (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2020 and rolling forward the total pension liability to June 30, 2021. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2021, the District’s proportion was 0.026 percent, which was an increase of 0.001 from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the District recognized pension expense of \$321,818. In addition, the District recognized pension expense and revenue of \$(1,024,710) for support provided by the State. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between projected and actual earnings on plan investments	\$ -	\$ 9,242,305
Differences between expected and actual experience	29,269	1,243,416
Changes in assumptions	1,655,492	-
Changes in proportion and differences between District contributions and proportionate share of contributions	147,264	687,592
District contributions subsequent to the measurement date	2,428,427	-
Total	<u>\$ 4,260,452</u>	<u>\$ 11,173,313</u>

The \$2,428,427 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended June 30,</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>

Actuarial Assumptions

The total pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2020, and rolling forward the total pension liability to June 30, 2021 using the following actuarial assumptions, applied to all periods included in the measurement:

Consumer Price Inflation	2.75%
Investment Rate of Return*	7.10%
Wage Inflation	3.50%

* Net of investment expenses, but gross of administrative expenses.

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on MP-2016 series tables adjusted to fit CalSTRS experience.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2018.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance–PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in January 2020 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS’ independent consulting actuary (Milliman) reviews the return assumption for reasonableness

based on the most current capital market assumptions. Best estimates of expected 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class as of June 30, 2021, are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return*
Public Equity	42%	4.80%
Real Estate	15%	3.60%
Private Equity	13%	6.30%
Fixed Income	12%	1.30%
Risk Mitigating Strategies	10%	1.80%
Inflation Sensitive	6%	3.30%
Cash/Liquidity	2%	-0.40%

A. California State Teachers’ Retirement System (CalSTRS) (continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increases per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the Plan’s fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)
District's proportionate share of the net pension liability	\$ 23,784,338	\$ 11,683,949	\$ 1,640,857

B. California Public Employees’ Retirement System (CalPERS)

Plan Description

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS); a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95811.

Benefits Provided

The benefits for the defined benefit plan are based on members’ years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years of credited service.

NOTE 10 – PENSION PLANS (continued)

B. California Public Employees’ Retirement System (CalPERS) (continued)

Contributions

Active plan members who entered into the plan prior to January 1, 2013, are required to contribute 7.0% of their salary. The California Public Employees’ Pension Reform Act (PEPRA) specifies that new members entering into the plan on or after January 1, 2013, shall pay the higher of fifty percent of normal costs or 7.0% of their salary. Additionally, for new members entering the plan on or after January 1, 2013, the employer is prohibited from paying any of the employee contribution to CalPERS unless the employer payment of the member’s contribution is specified in an employment agreement or collective bargaining agreement that expires after January 1, 2013.

The District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2022 was 22.91% of annual payroll. Contributions to the plan from the District were \$858,296 for the year ended June 30, 2022.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the District reported a liability of \$5,243,440 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2020 and rolling forward the total pension liability to June 30, 2021. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2021, the District’s proportion was 0.026 percent, which was a decrease of 0.001 percent from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the District recognized pension expense of \$353,681. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between projected and actual earnings on plan investments	\$ -	\$ 2,012,276

The \$858,296 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Total	\$ 156,530	\$ 2,396,529

Actuarial Assumptions

The total pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2020, and rolling forward the total pension liability to June 30, 2021 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Discount Rate	7.15%
Salary Increases	Varies by Entry Age and Service

CalPERS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are derived using CalPERS’ membership data for all funds. The table includes 15 years of mortality improvements using the Society of Actuaries Scale 90% of scale MP 2016.

The actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the period from 1997 to 2015.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, both short-term and long-term market return expectations as well as the expected pension fund cash flows were taken into account. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds’ asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+years) using a building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

**An expected inflation of 2.92% used for this period.

Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Schools Pool. The results of the crossover testing for the Schools Pool are presented in a detailed report that can be obtained at CalPERS’ website.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

NOTE 11 – COMMITMENTS AND CONTINGENCIES

A. Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2022.

B. Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2022.

C. Construction Commitments

As of June 30, 2022, the District had commitments with respect to unfinished capital projects of \$4,907,461.

NOTE 12 – PARTICIPATION IN JOINT POWERS AUTHORITIES

The District participates in three joint ventures under joint powers authorities (JPAs), the Contra Costa County Schools Insurance Group (CCCSIG) for workers' compensation insurance, the East Bay Schools Insurance Group (EBSIG) for property and liability insurance, and Schools Self-Insurance of Contra Costa County (SSICCC) for dental and vision insurance. The relationships between the District and the JPAs are such that the JPAs are not component units of the District for financial reporting purposes.

The JPAs have budgeting and financial reporting requirements independent of member units, and their financial statements are not presented in these financial statements. However, fund transactions between the JPAs and the District are included in these statements. The audited financial statements are generally available from the respective entities.

NOTE 13 – DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

A. Pension Plans

Pursuant to GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, the District recognized deferred outflows of resources related to pensions and deferred inflows of resources related to pensions in the District-wide financial statements. Further information regarding the deferred outflows of resources and deferred inflows of resources can be found at Note 10. At June 30, 2022, total deferred outflows related to pensions was \$5,275,278 and total deferred inflows related to pensions was \$13,569,842.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2022**

NOTE 1 – PURPOSE OF SCHEDULES

Budgetary Comparison Schedule

This schedule is required by GASB Statement No. 34 as required supplementary information (RSI) for the General Fund and for each major special revenue fund that has a legally adopted annual budget. The budgetary comparison schedule presents both (a) the original and (b) the final appropriated budgets for the reporting period as well as (c) actual inflows, outflows, and balances, stated on the District's budgetary basis. A separate column to report the variance between the final budget and actual amounts is also presented, although not required.

Schedule of Changes in Net OPEB Liability and Related Ratios

This 10-year schedule is required by GASB Statement No. 75 for all sole and agent employers that provide other postemployment benefits (OPEB). Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 75 was applicable. The schedule presents the sources of change in the net OPEB liability, and the components of the net OPEB liability and related ratios, including the OPEB plan's fiduciary net position as a percentage of the total OPEB liability, and the net OPEB liability as a percentage of covered-employee payroll.

Changes in Benefit Terms

There were no changes in benefit terms since the previous valuations for OPEB.

Changes in Assumptions

The discount rate changed from 4.39 percent to 3.82 percent since the previous measurement for OPEB. The healthcare cost trend rate changed from 3.50 in 2021 to 6.00 percent in 2022.

Schedule of District Contributions and Investment Returns for OPEB

This schedule presents information on the District's actuarially determined contribution, contributions in relation to the actuarially determined contribution, and any excess of deficiency related to the actuarially determined contribution. It also presents information on the annual money weighted rate of return on OPEB plan investments. In future years, as data becomes available, ten years of information will be presented.

Schedule of the District's Proportionate Share of the Net Pension Liability

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 68 was applicable. The schedule presents the District's proportion (percentage) of the collective net pension liability, the District's proportionate share (amount) of the collective net pension liability, the District's covered payroll, the District's proportionate share (amount) of the collective net pension liability as a percentage of the employer's covered payroll, and the pension plan's fiduciary net position as a percentage of the total pension liability.

Changes in Benefit Terms

There were no changes in benefit terms since the previous valuations for CalSTRS and CalPERS.

Changes in Assumptions

There were no changes in economic assumptions since the previous valuations for CalSTRS and CalPERS.

NOTE 1 – PURPOSE OF SCHEDULES (continued)

Schedule of District Contributions

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 68 was applicable. The schedule presents the District’s statutorily or contractually required employer contribution, the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the difference between the statutorily or contractually required employer contribution and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the District’s covered payroll, and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution as a percentage of the District’s covered payroll.

NOTE 2 – EXCESS OF EXPENDITURES OVER APPROPRIATIONS

For the year ended June 30, 2022, the District incurred an excess of expenditures over appropriations in individual major funds presented in the Budgetary Comparison Schedule by major object code as follows:

The General Fund ending fund balance has increased by \$300,360 over the past two years. The fiscal year 2022-23 budget projects a decrease of \$2,390,628. For a District this size, the State recommends available reserves of at least 3% of General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating surpluses in two of the past three years but anticipates incurring an operating deficit during the 2022-23 fiscal year. Total long-term obligations have increased by \$23,249,501 over the past two years.

Average daily attendance has decreased by 70 ADA over the past two years. An increase of 58 ADA is anticipated during the 2022-23 fiscal year.

*Available reserves consist of all unassigned fund balance within the General Fund.

**An audit adjustment of \$61,164 is not included in the actual revenues and expenditures reported in this schedule.

***Due to the COVID-19 pandemic, Average Daily Attendance at P-2 was not reported in 2021. Funding was based on Average Daily Attendance at P-2 as reported in 2020.

NOTE 1 – PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The District has not elected to use the 10 percent de minimis indirect cost rate.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

This schedule presents information on the amount of instructional time offered by the District and whether the District complied with article 8 (commencing with section 46200) of chapter 2 of part 26 of the *Education Code*.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Measure A and Measure B – Parcel Tax – Schedule of Revenues, Expenditures, and Changes in Fund Balance

This schedule discloses the revenues, expenditures, and remaining fund balance of the District's Measure A and Measure B parcel tax. In accordance with the ballot measure, proceeds from the parcel tax were used to reduce the impact of state budget cuts, maintain small class size and neighborhood schools, attract and retain skilled, qualified teachers with competitive compensation and training, and protect classroom programs and strong core academics. All expenditures reviewed were made in accordance with the purposes identified in the ballot measure.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Annual Financial and Budget Report Unaudited Actuals to the audited financial statements.

Combining Statements – Non-Major Funds

These statements provide information on the District's non-major funds.

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

OTHER INDEPENDENT AUDITORS' REPORTS

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Independent Auditors' Report

Governing Board
Orinda Union School District
Orinda, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Orinda Union School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Orinda Union School District's basic financial statements, and have issued our report thereon dated December 2, 2022.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Orinda Union School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Orinda Union School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Orinda Union School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Orinda Union School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**Independent Auditors' Report

Governing Board
Orinda Union School District
Orinda, California

Report on Compliance for Each Major Federal Program***Opinion on Each Major Federal Program***

We have audited Orinda Union School District's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Orinda Union School District's major federal programs for the year ended June 30, 2022. Orinda Union School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Orinda Union School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Orinda Union School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on compliance for each major federal program. Our audit does not provide a legal determination of Orinda Union School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of the laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Orinda Union School District's federal programs.

Auditor's Responsibilities for the Audit for Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Orinda Union School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user of the report on compliance about Orinda Union School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Orinda Union School District's compliance with compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Orinda Union School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Orinda Union School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Report on Internal Control Over Compliance (continued)

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

REPORT ON STATE COMPLIANCEIndependent Auditors' Report

Governing Board
Orinda Union School District
Orinda, California

Report on State Compliance***Opinion on State Compliance***

We have audited Orinda Union School District's compliance with the types of compliance requirements described in the *2021-2022 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, prescribed by Title 5, *California Code of Regulations*, section 19810, that could have a direct and material effect on each of Orinda Union School District's state programs for the fiscal year ended June 30, 2022, as identified below.

In our opinion, Orinda Union School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the applicable state programs for the year ended June 30, 2022.

Basis for Opinion on State Compliance

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2021-2022 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, prescribed by Title 5, *California Code of Regulations*, section 19810 as regulations (the K-12 Audit Guide). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of State Compliance section of our report.

We are required to be independent of Orinda Union School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on state compliance. Our audit does not provide a legal determination of Orinda Union School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of the laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Orinda Union School District's state programs.

Auditor’s Responsibilities for the Audit of State Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the state compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Orinda Union School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the K-12 Audit Guide will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user of the report on compliance about Orinda Union School District's compliance with the requirements of the applicable state programs as a whole.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, and the K-12 Audit Guide, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Orinda Union School District's compliance with compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Orinda Union School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the K-12 Audit Guide, but not for the purpose of expressing an opinion on the effectiveness of Orinda Union School District's internal control over compliance. Accordingly, no such opinion is expressed.
- Select and test transactions and records to determine Orinda Union School District's compliance with the state laws and regulations related to the following items:

The term “Not Applicable” is used above to mean either the District did not offer the program during the current fiscal year or the program applies to a different type of local education agency.

We did not perform testing for Independent Study because average daily attendance was not material.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies or material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is described in the accompanying schedule of findings and questioned costs as Finding #2022-001. Our opinion on state compliance is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Orinda Union School District’s response to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs and corrective action plan. Orinda Union School District’s response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of State Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the K-12 Audit Guide. Accordingly, this report is not suitable for any other purpose.
